

“Vistafolia®’s lush artificial green wall system panels have been designed to create a beautiful green environment with a realistic effect even in the most inhospitable planting locations”.

## PRODUCT DESCRIPTION

The standard size panel comprises UV Stabilised & Fire Rated artificial foliage fixed to a powder coated mild steel grid.

## FEATURES

- Three-panel system prevents repetition in planting and removes join lines
- Durable panels manufactured to ISO 9001
- UV & Fire Rated with test certificates
- REACH Compliant
- Quick and easy installation
- Sixteen different plant varieties
- Customisable with a range of Colour & Texture boxes

### Quality Standards / Certification:

**PANEL PROFILE**

1 Panel = 0.64 sqm

REAR VIEW

SIDE VIEW

The Vistafolia® Panel was designed with a small allocation of 'planting overlap' to allow for seamless installation of multiple panels. The top overlap is slightly greater than the bottom one whereas the side overlaps are the same. The overlap also serves to disguise the grid that holds the plants.
